The following centers are participating in this important research:

Cleveland Clinic
Cleveland, Ohio

Harvard Medical School -
Massachusetts General Hospital &
Brigham and Women's Hospital
Boston, Massachusetts

Northwestern University Feinberg School
of Medicine,
Chicago, Illinois

Temple University
Philadelphia, Pennsylvania

David Geffen School of Medicine at
UCLA & King-Drew Medical Center
Los Angeles, California

University of Mississippi Medical Center
Jackson, Mississippi

University of Washington Medical Center
Seattle, Washington

Queen’s University
Kingston, Ontario, Canada

Stanford University Medical Center
Stanford, California

University of Maryland School of Medicine
Baltimore, Maryland

CHRONIC PROSTATITIS/
CHRONIC PELVIC PAIN
SYNDROME

Chronic prostatitis is a common condition that affects men of all ages and ethnic groups.

We are dedicated to improving treatments for this condition.

Will you help us make this happen?
JOIN THE FIGHT AGAINST CHRONIC PROSTATITIS

Supported by the National Institute of Diabetes & Digestive & Kidney Diseases (NIDDK) of the National Institutes of Health (NIH), the Chronic Prostatitis Collaborative Research Network-2 (CPCRN-2) was established to learn more about how to better diagnose and treat chronic prostatitis. These are important issues and we invite you to participate in this research.

DO YOU HAVE CHRONIC PROSTATITIS?

Signs and symptoms may include:

- Pelvic pain and/or discomfort
- Frequent and urgent need to urinate
- Excessive urination during the night
- Pain or a burning sensation when urinating
- Pain related to ejaculation

RESEARCH STUDY

We are conducting a multi-center research study for men who have been treated for chronic prostatitis/chronic pelvic pain syndrome but have not found relief for their symptoms.

YOU MAY BE ELIGIBLE TO JOIN THIS STUDY IF YOU...

- are 18 years of age or older
- have experienced pelvic pain and/or discomfort for at least three months

IF YOU QUALIFY, YOU WILL BE ASKED TO:

- Take a study medication or placebo three times a day for six weeks
- Come in for three clinic visits and complete three phone visits over an 8- to 12-week period
- Undergo a physical exam and fill out questionnaires that ask about your symptoms

INTERESTED OR KNOW SOMEONE WHO IS?

For more information about the study, please visit our website: www.upcrn.org or contact the following medical center:
